SUMMARY

Senior DevOps Engineer with 7+ years of experience designing and managing scalable, secure, and highly available multi-cloud infrastructure across AWS, Azure, and GCP. Expertise in CI/CD pipeline architecture, Kubernetes platform engineering, Infrastructure as Code (IaC), and observability. Proven ability to lead DevOps transformations, improve deployment reliability, and optimize cloud costs for enterprise-scale systems.

SKILLS

Cloud & Platforms: AWS, Azure, GCP, Digital Ocean, VMware

Containerization & Orchestration: Docker, Kubernetes (EKS, AKS), Amazon ECS, Azure Container, OpenShift

CI/CD & DevOps Tools: Jenkins, Azure DevOps, GitHub Actions, Argo CD, AWS CodePipeline, Bitbucket Pipelines

Infrastructure as Code & Automation: Terraform, Terragrunt, CloudFormation, Ansible

Monitoring & Observability: Amazon CloudWatch, Azure Monitor, Prometheus, Grafana, ELK Stack, Splunk, Zabbix, Nagios

Scripting & Programming: Python, Bash, Groovy

Security & Compliance: CyberArk, SailPoint, SonarQube, Fossology, OWASP Dependency Check, SOC2, HIPAA, GDPR

PROFESSIONAL EXPERIENCE

Lead Consultant

HCL Tech

August 2024 - October 2025, Noida, Uttar Pradesh

- Architect enterprise-grade multi-cloud CI/CD pipelines (AWS, Azure, GCP) using GitHub Actions, improving deployment reliability by 70%
- Led Kubernetes platform implementation across AKS, EKS, and OpenShift, supporting large-scale production workloads
- Standardized Infrastructure as Code using Terraform and Ansible, reducing manual effort by 50%
- Implemented centralized monitoring and alerting (CloudWatch, Azure Monitor, Prometheus), achieving 99.9% uptime
- Strengthened security posture using CyberArk, GitHub-integrated DevSecOps practices, and compliance frameworks

DevOps Engineer

Matellio Inc (India)

April 2023 - June 2024, Jaipur, Rajasthan

- Managed multi-cloud infrastructure (AWS, Azure, GCP) supporting 50+ production workloads
- Designed scalable Infrastructure as Code solutions using Terraform, reducing provisioning time by 70%
- Built CI/CD pipelines using GitHub Actions, Jenkins, and Azure DevOps for multi-environment deployments
- Optimized cloud costs by 30% through rightsizing, auto-scaling, and resource governance strategies
- Implemented disaster recovery and backup strategies, improving RTO by 50%

DevOps Engineer

Stellar Informatics Private Limited

September 2020 - April 2023, Noida, Uttar Pradesh

- Built CI/CD pipelines for AWS & Azure, improving deployment efficiency by 70%.
- Managed GitHub, GitLab & AWS CodeCommit branching strategies.
- Integrated DevSecOps tools (SonarQube, OWASP), ensuring secure releases.
- Implemented monitoring using Prometheus, Grafana & CloudWatch, reducing issue detection time by 40%.
- Containerized applications with Docker; deployed on AWS ECS & ACI.

System Administrator

Evision Technoserve Private Limited

January 2019 - September 2020, Noida, Uttar Pradesh

- Automated infrastructure provisioning on AWS & Azure using Terraform, reducing setup time by 60%.
- Built CI/CD pipelines with Jenkins, improving deployment speed by 50%.
- Managed Linux/Windows servers ensuring high availability & patch compliance.
- Implemented Docker-based containerization & monitoring with Prometheus/Grafana.

EDUCATION

Master of Business Administration (MBA-T&FINANCE)

Swami Vivekanand Subharti University, Meerut • 07/2021-06/2023

Bachelor of Computer Application (BCA)

Jaipur National University, Jaipur • 07/2017 - 06/2021

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals [\[View\]](#)

Microsoft Certified: Azure Administrator Associate [\[View\]](#)

Microsoft Certified: DevOps Engineer Expert [\[View\]](#)

AWS Certified DevOps Engineer - Professional [\[View\]](#)

Red Hat Certified System Administrator (RHCSA) [\[View\]](#)

Red Hat Certified Engineer (RHCE) [\[View\]](#)

Red Hat Certified Virtualization Administrator (RHCVA) [\[View\]](#)
